

Survey guidance language:

Instructions for specific questions:

When writing free-text answers within this survey, please try to avoid providing identifying information about an individual. For example, instead of saying “Jane Smith provided support services”, write “The IT Support Lead provided support services”.

Resume later:

If you choose to use the "resume later" feature, please note your survey responses will not be linked to your account information so your identity will remain unknown.

Survey questions

We are contacting you because you indicated your data were “available upon request” and are affiliated with a Canadian research institution.

Definition:

“Available upon request” in this context means that you indicated the data could be made available but contact with the corresponding author would be needed to gain access or understand access requirements or processes.

Example statements:

▼ Data Availability Statement

The datasets used and/or analyzed during the current study are available from the corresponding author on reasonable request.

Code, Data, and Materials Availability

Request of code, data and materials presented in this paper should be directed to the corresponding author .

Instructions:

Please answer the following questions based on your most recent publication where you indicated that your data were "available upon request."

INTRODUCTION

1. **Have you published a manuscript where you indicated your data are “available upon request”?**
 - a. Yes
 - b. No (pushes to page that says: “At this time, we are looking to understand the perspectives and experiences of researchers who have made data “available upon request”. If you are here by mistake, feel free to begin the survey anew, Otherwise, please click next to exit the survey.”)
2. **Have you received any requests for the data you indicated were “available upon request”?**
 - a. Yes
 - b. No
 - c. I don’t know
 - d. Prefer not to answer
3. **(IF 2 yes) Have you ever granted access to these data?**
 - a. Yes
 - b. No
 - c. I don’t know
 - d. Prefer not to answer
4. **For the data you have indicated is “available upon request”, which of the following best represents the type(s) of data (check all that apply):**
 - a. Qualitative
 - b. Quantitative
 - c. Mixed methods

PAGE BREAK IN SURVEY

YOUR DECISION-MAKING PROCESS

5. **Why did you decide to make your data “available upon request”?**

Free text

PAGE BREAK IN SURVEY

6. **Did any of the following policy-related factors influence your decision to make your data “available upon request”? (check all that apply)**
 - a. Adherence with institutional data sharing policy

- b. Adherence with funder data sharing policy
- c. Compliance with ethical requirements (e.g., TCPS2, ethics protocol, consent)
- d. Compliance with commercial or legal obligations to not make data publicly available (e.g., patent, NDA, copyright, license terms)
- e. Compliance with research partnership or data use agreements
- f. Adherence with journal data sharing policy
- g. Other: _____
- h. None of these

Did any of the following other factors influence your decision to make your data “available upon request”? (check all that apply)

- i. Direction from journal editor or peer reviewer
- j. Journal provided boilerplate “available upon request” language as an option
- k. Lack of technical infrastructure to provide access
- l. No institutional support for review of requests (e.g., data access committee)
- m. No established process to review requests within your research team
- n. Interest in knowing who has accessed and/or used the data
- o. Concern over how data could be used or interpreted if data were shared publicly
- p. Want to interact with the data requestor before granting access
- q. Disciplinary practice (i.e., publications in my field often indicate data is available upon request)
- r. Recommendation from peers to use this language
- s. I was not familiar with other data sharing options
- t. Other: _____
- u. None of these

PAGE BREAK IN SURVEY

RESEARCH DISCIPLINE

7. Which of the following disciplines best represent the data you made “available upon request”:

- v. Natural sciences – branch (e.g.)
 - i. Mathematics and statistics -1
 - ii. Computer and information sciences -2
 - iii. Physical sciences -3
 - iv. Chemical sciences -4
 - v. Earth and related environmental sciences -5
 - vi. Biological sciences -6
 - vii. Other natural sciences -9
- w. Engineering and technology
 - i. Civil engineering, maritime engineering, transport engineering, and mining engineering -11

- ii. Industrial, systems and processes engineering - 12
- iii. Electrical engineering, computer engineering, and information engineering - 13
- iv. Mechanical engineering -14
- v. Chemical engineering - 15
- vi. Materials engineering and resources engineering - 16
- vii. Medical and biomedical engineering - 17
- viii. Environmental engineering and related engineering - 18
- ix. Environmental biotechnology - 19
- x. Industrial biotechnology - 20
- xi. Nano-technology - 21
- xii. Other engineering and technologies -29.
- x. Medical, health, and life sciences
 - i. Basic medicine and life sciences - 31
 - ii. Clinical medicine - 32
 - iii. Health sciences - 33
 - iv. Medical biotechnology - 34
 - v. Other medical sciences - 86
- y. Agricultural and veterinary sciences
 - i. Agriculture, forestry, and fisheries - 41
 - ii. Animal and dairy sciences - 42
 - iii. Veterinary sciences - 43
 - iv. Agricultural biotechnology and food sciences - 44
 - v. Other agricultural sciences - 49
- z. Social sciences
 - i. Psychology and cognitive sciences -51
 - ii. Economics and business administration -52
 - iii. Education -53
 - iv. Sociology and related studies -54
 - v. Law and legal practice -55
 - vi. Political science and policy administration -56
 - vii. Social and economic geography -57
 - viii. Media and communications -58
 - ix. Other social sciences -59
- aa. Humanities and the arts
 - i. History, archaeology and related studies - 61
 - ii. Languages and literature - 62
 - iii. Philosophy - 63
 - iv. Arts (arts, history of arts, performing arts, music), architecture and design - 64
 - v. Other humanities - 69
- bb. Prefer not to answer

PROVIDING ACCESS TO YOUR DATA

8. How likely are you to make your data available to a requestor? (left – right)

- Not at all likely
- Slightly likely
- Moderately likely
- Very likely
- Extremely likely
- Prefer not to answer

PAGE BREAK IN SURVEY

9. How willing are you to provide access to your data to the following types of people if they provide a reasonable request?

Group:	Not at all willing	Slightly willing	Moderately willing	Very willing	Extremely willing	Prefer not to answer
Faculty						
Students						
Other academic research staff						
Government						
Not-for-profit organization						
Commercial entity						
Someone from the general public						

10. Are there other types of people not captured in the above question to whom you would be willing to provide access to the data you made “available upon request”? If so, please indicate below.

- a. Free text

PAGE BREAK IN SURVEY

11. Which of the following would you/your collaborators require from someone requesting access to your data? (check all that apply):

- cc. Provide a description of what they will do with the data
- dd. Acquire ethics and/or legal approval
- ee. Acquire approval from research partners – community partner(s), organization(s), government entities
- ff. Acquire approval from third-party data provider
- gg. Sign a data use agreement
- hh. Agree to technical requirements related to the transfer, storage, and/or security of the data
- ii. Apply for access on site/use trusted research environments/secure computer room
- jj. Agree to conditions/license with respect to data use, data derivatives, and intellectual property
- kk. Provide research outputs (e.g., analysis results, manuscripts) based on derivatives for review before dissemination
- ll. Include you as a co-author for publications based on the data
- mm. Other: _____
- nn. None of these

12. Which of the following best describes how you have evaluated/would evaluate requests for access to the data?:

- a. Pre-defined set of criteria to evaluate requests
- b. Evaluate requests on a case-by-case basis
- c. Prefer not to answer

PAGE BREAK IN SURVEY

RESOURCES & SUPPORT

13. Did you consult any of the following supports when making your data “available upon request”? (Check all that apply)

- oo. Institutional IT, Research Computing, and/or High-Performance Computing
- pp. Library
- qq. Technology Transfer
- rr. Research Ethics Office
- ss. International Office
- tt. Organization- or University-wide administration
- uu. Unit administration (e.g. Department, Faculty, College)
- vv. Information Security and/or Research Security
- ww. Legal Office
- xx. Partnerships and Agreements Office
- yy. Other: _____
- zz. None of these

PAGE BREAK IN SURVEY

14. Where do you keep the data you made “available upon request”? (Check all that apply):

- a. Portable storage (e.g., USB, external drive, CD-ROM)
- b. Computer hard drive (not on the cloud)
- c. Institutional storage with on-site servers (e.g., enclave, network drive, tape)
- d. Institutional data repository (e.g. Borealis/Dataverse)
- e. Institutional cloud storage (e.g., University provided: Google Drive, OneDrive, SharePoint, Amazon Web-Services)
- f. Cloud storage not provided by your institution (e.g., Amazon Web-Services, Google Drive, Dropbox)
- g. External data service (e.g., Research Data Centre, IC/ES, HDRN)
- h. National data infrastructure (e.g., High performance computing)
- i. External data repository (e.g., Federated Research Data Repository, Zenodo, ICPSR)
- j. Disciplinary or domain-specific storage service
- k. Physical location (e.g., archive, museum)
- l. Other: _____

15. How long do/did you intend to retain the data you made “available upon request”? Please leave blank if you prefer not to answer.

- a. (enter an integer in years): _____
- b. I did not set a defined retention period for these data

16. (IF 15 Y): Was the length of this period influenced by any of the following external requirements or guidelines? (check all that apply):

- a. Funder guideline/requirement
- b. Institutional guideline/requirement (e.g. ethics board requirement, institutional retention period)
- c. Journal policy
- d. Legal requirement
- e. Partner/agreement obligation
- f. Other

17. If you decide to approve an access request, please describe the step-by-step process you follow to provide access to the data. You may use point form:

- a. Free text

PAGE BREAK IN SURVEY

DATA SHARING PRACTICES

In this section, we will be asking you more general questions where we would like you to answer based on your entire research career.

18. Thinking of all your published research, how often have you indicated your data were “available upon request”?

- a. Almost never
- b. Occasionally
- c. About half the time
- d. Often
- e. Always/Almost always
- f. Prefer not to answer

19. Have you ever requested access to another researcher’s data?

- aaa. Yes
- bbb. No
- ccc. Prefer not to answer

20. Is there anything else you’d like to share with us about data sharing or data access?

- a. Free text
